***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1, 6, 8, 9 and 10-12, drawn to a metal-containing pigment;  
Group II, claims 2, 6 and 10-12, drawn to silicon-containing layered pigment;  
Group III, claims 3, 6, 7 and 10-12, drawn to three-layered pigment;  
Group IV, claims 4, 6 and 10-12, drawn to four-layered pigment;  
Group V, claims 5, 6 and 10-12, drawn to five-layered pigment.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I does not require a layer with consists of metal, Si and O, which is a special technical feature of group II;

Group II does not require the special technical feature of group III, i.e., two outer layers of SiO<sub>2</sub>;

Group III does not require the special technical feature of group IV, i.e., a layer of high RI material;

Group IV does not require the special technical feature of group V, i.e. two outer layers of high RI material.

3. Due to the complex multiple groupings of claims, a written restriction requirement is deemed appropriate.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511.

The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney can be reached on 571-272-1284. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
